

**How big is Modkat?**

The ModKat Litter Box is 15"/38cm tall, 16"/40.64cm deep, and 16"/40.64cm wide and has the standard size opening for the cats to enter. The design was engineered to consume the least amount of space possible, while offering a comfortable environment for just about every cat. This size was tested for cat comfort and to ensure that your cat can easily turn completely around inside the box and do their digging. With the entrance on top, the lid is also the litter matt, decreasing the footprint of your litter box
